PROFESSIONAL SUMMARY

Software Engineer and Full Stack Web Developer with a Bachelor’s degree in Software Engineering. Experienced in designing, developing, and maintaining full-stack web applications using Laravel for backend development and React for frontend development. Skilled in building RESTful APIs, working with MySQL databases, and applying MVC architecture and software engineering principles. Focused on writing clean, maintainable, and scalable code. Strong problem-solving abilities and continuously improving skills through real-world projects and hands-on experience.

TECHNICAL SKILLS

Backend: Laravel, PHP, RESTful APIs, Authentication, MVC Architecture, CRUD Operations
Frontend: React, JavaScript, HTML5, CSS3, Responsive Design
Database: MySQL, MongoDB, SQL, Database Design, Query Optimization
Tools: Git, GitHub, Postman
Concepts: Object-Oriented Programming (OOP), Software Engineering Principles, Clean Code, Problem Solving

WORK EXPERIENCE

Full Stack Web Developer | 2025 – Present

- Developed full-stack web applications using Laravel, React, JavaScript, and MySQL
- Built secure web systems with authentication, authorization, role-based access control, and CRUD functionality
- Designed and implemented RESTful APIs for frontend-backend communication
- Applied MVC architecture and clean code principles in development
- Designed optimized database structures focused on performance and scalability
- Used Git and GitHub for version control and project management

Key Projects:

- Job Search Platform: multi-role system with Admin, Company, and Job Seeker dashboards including job posting, application management, and user management
- E-Commerce System: product management, inventory control, shopping cart, order processing, and admin dashboard
- Dental Clinic Management System: appointment scheduling, patient records, role-based access control, and doctor/admin dashboards
- QR Menu System: digital restaurant ordering system with menu management and real-time order processing
- Pharmacy Duty System: structured duty scheduling system with map integration and user coordination

EDUCATION

Bachelor’s Degree in Software Engineering
Konya Technical University, Turkey
2022 – 2026
Relevant Coursework: Data Structures & Algorithms, Database Systems, Web Development, Object-Oriented Programming, System Design Fundamentals

LANGUAGES

Arabic: Native
English: Intermediate
Turkish: Intermediate
